Subject: PFC Samples - Coosa System (Chattooga, Coosa at Stateline, below Weiss)
Importance: High

Please find attached recent PFC sample results collected by ADEM on the Coosa River and Chattooga River in Alabama. Included is a map identifying the sample locations. Should you have any questions, please feel free to contact me. Likewise, Alabama is interested in receiving any water quality data Georgia EPD or EPA Region IV has, or may have in the future, with regard to PFCs up stream of Alabama, in particular in the Coosa River and Chattooga River.

Regards,

Glenda L. Dean, Chief
Water Division
